Het publicatieoverzicht is gebaseerd op peer-reviewed publicaties in PubMed en Dimensions met aanvullingen van de vakgroepen.

- a Individuele publicaties maken soms onderdeel uit van verschillende vakgroepen en worden daarom opgenomen onder meerdere vakgroepen.
- b Het totaal aantal publicaties in 2023.

Open Access

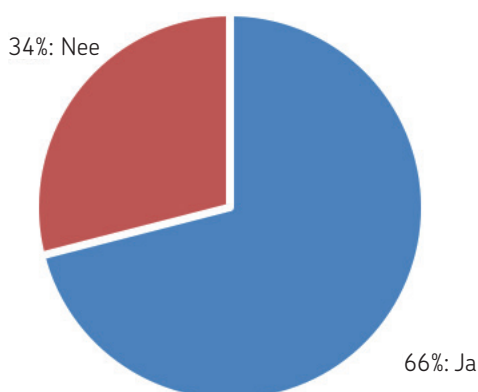

Open Access is een internationale beweging die streeft naar vrij en ongelimiteerde online toegang tot wetenschappelijke informatie, zoals publicaties en data. Op deze manier kan iedereen wetenschappelijke informatie inzien. Voor onderzoekers geeft het open access publiceren veel voordelen. Zo is er meer zichtbaarheid voor publicaties, stimuleert het hergebruik van onderzoek, is er een brede verspreiding naar collega's, en is er een grotere citatiekans. Zie voor meer informatie: www.openaccess.nl

In november 2013, heeft de Nederlandse regering het standpunt ingenomen dat publiek gefinancierd onderzoek vrij toegankelijk moet zijn. Daarnaast is de ambitie dat binnen tien jaar, in 2024, 100 procent van de Nederlandse wetenschappelijke publicaties open access gepubliceerd zijn.

Uit het open access haalbaarheidsonderzoek in opdracht van de Vereniging Samenwerkende Nederlandse Universiteiten, blijkt dat het huidige Nederlandse open access beleid erg succesvol is. Vanaf 2020 is 75 procent van alle onderzoeksartikelen met een auteur van een Nederlandse universiteit of Universitair Medisch Centrum open access gepubliceerd¹. Bij onderzoeksinstituten die gefinancierd worden door het ministerie van Onderwijs Cultuur en Wetenschap is het percentage lager maar nog altijd 60% van de onderzoeksartikelen worden binnen deze instituten open access gepubliceerd¹. Er is geen systematisch inzicht in het percentage open access gepubliceerde artikelen van buitenuniversitaire instellingen, waaronder het Jeroen Bosch Ziekenhuis.

Uit een analyse, blijkt dat in 2023 66 procent van de onderzoeksartikelen met een auteur van het Jeroen Bosch Ziekenhuis open access is gepubliceerd. In 2022 was 73 procent van alle onderzoeksartikelen met een auteur van het Jeroen Bosch Ziekenhuis open access gepubliceerd. Ondanks dat de verwachting was dat de komende jaren dit percentage jaarlijks steeds hoger zou worden, is er voor het eerst een afname waar te nemen in het jaarlijkse percentage onderzoeksartikelen dat open access wordt gepubliceerd in het Jeroen Bosch Ziekenhuis.

Open Access publicaties Jeroen Bosch Ziekenhuis 2023
